

Cento/Visto Floor Standing Instructions

It's Important that before starting that you carefully read this instruction and the instructions supplied inside the appliance.

Note, the surfaces of your fireplace can be scratched or damaged if care is not taken during installation.

A second pair of hands will be necessary to complete this installation safely and damage free.

It is the responsibility of the installer to ensure that the correct fittings are being used to secure the fire safely to the wall.

Preparing the Fire:

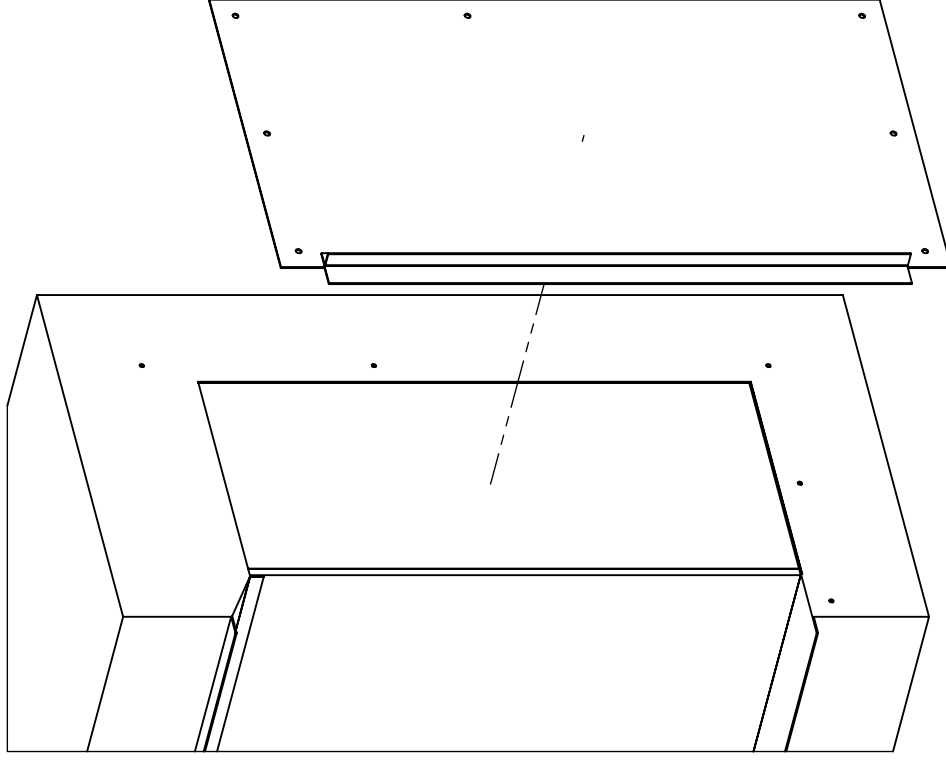

Ensure that you keep all screws removed for future use and spares.

1. Now refer to the appliance instructions see page 7 and remove front glass has shown, carefully remove the cartons inside the appliance. Arrange the appliance as a "Front and two sides view" as shown on page 7. After removing the side panel ensure you replace the vertical edging strips back onto the appliance, use the top and bottom edging strips as referred on page 7.
2. Set up your fuel bed and replace the front glass following the instruction in the appliance before fitting the surround.

Fitting the Surround: (Extra Pair of hands is useful for the next stage)

1. Take the engine and carefully place it inside the cut-out on the top of the hearth.
2. Take the top of the surround and slide it on from the bottom of the top on to the trim on the side of the fire.
3. Secure the top to the wall by using the brackets as supplied. **ENSURE THAT CORRECT FIXTURES FOR YOUR WALL ARE USED.**
4. Next place the 2 sides behind one of the vertical edging strips of the fire with the inner strip facing inwards, and over the 'KD Block', so that they secure themselves in place.
5. Job done. Enjoy your new fireplace!

HANDLE WITH CARE WHEN FITTING THE SURROUND - SHARP EDGES MAY CAUSE DAMAGE TO YOURSELF AND THE SURROUND IF NOT HANDLED PROPERLY

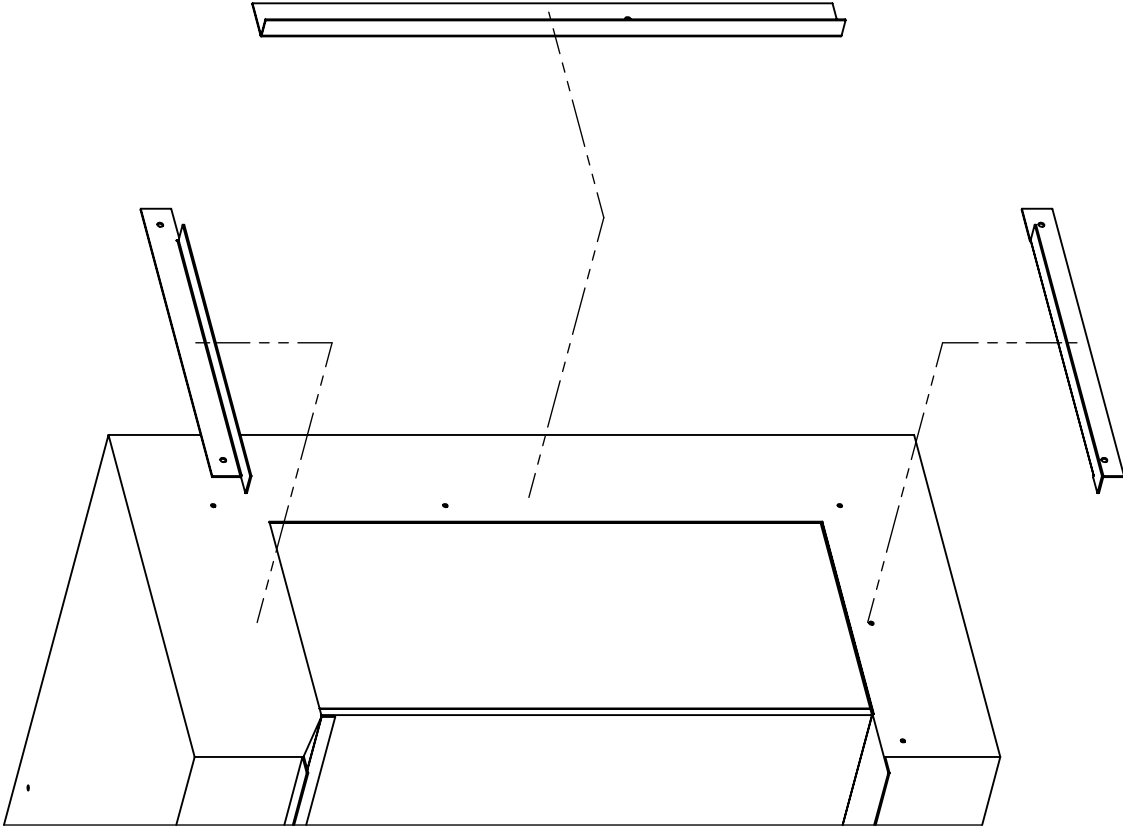

Remove the metal
side panels on the fire
